Experience

Proviz School of AI (Certificate)

November 2024 – Present

Web Developer Intern

Remote

- Developed, maintained, and optimized dynamic **React-based web pages** to enhance usability and align with the educational objectives of Proviz School of AI.
- United with cross-functional teams on **UI/UX improvements**, incorporating user feedback to boost satisfaction metrics by **15%**.
- Implemented **SEO best practices**, leading to a **20% increase in organic traffic** and monitored engagement using **Google Analytics**.

Ricoz (Certificate)

May 2024 – August 2024

ReactJS Developer Intern

Remote

- Led the development of **responsive front-end applications** using **ReactJS**, enhancing usability and functionality for over 5,000 monthly users.
- Reduced page load times by **20%** through performance optimization, improving user retention and reducing error rates by **30%**.
- Cooperated with backend teams to integrate **REST APIs**, ensuring seamless data flow and system stability.

Physics Wallah (Certificate)

April 2023 – September 2023

Full Stack Developer

Remote

- Designed and implemented **scalable front-end components** using **ReactJS** and **Redux**, improving application speed and reducing load times by **30%**.
- Built secure and reliable **server-side solutions** using **Node.js** and **Express.js**, supporting up to **10,000 active users**.
- Developed and deployed **REST APIs**, enhancing system interoperability and reducing latency by **20%**.

Education

Government college of Engineering Kalahandi

2021 – 2025

Bachelor of Technology - Computer Science

CGPA:8.5/10.0

Projects

Coddit (GitHub Repository)

March 2024

Social Media Platform

Personal Project

- Developed an engaging **social media platform** using **HTML, CSS, React JS, Node.js, and MongoDB**, enhancing user interactivity.
- Implemented secure **user authentication and authorization** to protect user data and ensure privacy.
- Collaborated with a team to design and deploy **new features**, improving platform usability.

Eco (GitHub Repository)

October 2023

Delivery Service Platform

Personal Project

- Designed **intuitive and responsive interfaces** using **ReactJS and JavaScript**, ensuring smooth user experience.
- Optimized application for **cross-browser compatibility** and responsive design, reaching a wider audience.
- Collaborated with backend teams to integrate **ExpressJS and MongoDB** for efficient data handling.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, C/C++, Java

Frameworks Libraries: ReactJS, NextJS, NodeJS, ExpressJS, Turborepo, Hono

Networking Technologies: WebSockets, WebRTC

Databases: PostgreSQL, Prisma, MySQL, MongoDB

Development Tools: CI/CD, Docker, Git, Linux, Bash

Cloud Platforms: AWS EC2, AWS S3, Cloudflare Workers

Core CS Subjects: DBMS, OOPS, OS, Data Structures, Algorithms

Other

Languages: English, Hindi, Odia

Certifications: FullStack Cohort (June 2024), CodeCaze (June 2023)

Soft Skills: Teamwork, Problem-Solving, Communication, Leadership, Time Management, Adaptability

Achievement Solved 200+ coding problems on LeetCode, enhancing expertise in algorithms and data structures.
